Portfolio:

<https://alvaromoreno39.github.io/PersonalWebPage/>

(incident analysis, security writeups and hands-on labs)

Professional Profile

Junior Cybersecurity Analyst focused on SOC Level 1, with hands-on experience in log analysis, alert investigation, and SIEM tools (Elastic/Kibana). I have worked with network traffic (PCAP), true/false positive classification, and evidence-based technical documentation.

I am seeking a Junior SOC Analyst role where I can contribute to security monitoring and continue developing my skills in threat detection and incident investigation.

Technical Skills

Cybersecurity: Alert triage, incident investigation, log analysis, PCAP

Tools: Elastic/Kibana, Wireshark, Linux CLI

Systems: Linux, Windows

Scripting: Python, Bash

Other: Git, GitHub

Experience

Security Incident Analysis (Hands-on Labs)

Hack The Box (Sherlocks + CJCA)

- Investigated security alerts and classified true/false positives
- Analyzed network traffic (PCAP) using Wireshark
- Used Elastic/Kibana for log search and correlation
- Reconstructed incidents from multiple data sources
- Documented findings in structured technical reports

SAP Support Technician (Internship)

Baseline — Madrid (Hybrid) | Mar 2025 - May 2025

- Resolved technical issues in SAP environment
- Managed access and provided user support

IT Support Technician (Internship)

Estudios Analíticos Aplicados A La Clínica — Boadilla del Monte | Mar 2023 – Jun 2023

- Provided hardware/software technical support
 - Resolved network-related issues
 - Performed system maintenance and backups
-

Certifications

HTB Certified Junior Cybersecurity Associate (CJCA)

Hack The Box

Completed — Certification pending (expected May 2026)

Offensive:

- Compromised a mixed environment (Windows, Linux, web and network services)

Defensive:

- Investigated alerts using Elastic/Kibana
 - Classified true/false positives
-

Education

Hack The Box Academy — Junior Cybersecurity Analyst Path | Nov 2025 - May 2026

Higher Technician in Cross-Platform Application Development | 2023 - 2025

Technician in Microcomputer Systems and Networks | 2021 - 2023

Languages

English: B2 (professional use, stays in Toronto and Dublin)

Spanish: Native

Core Competencies

- Security incident analysis
- Analytical thinking
- Teamwork
